

## **REMARKS / ARGUMENTS**

In complete response to the Restriction Requirement dated August 10, 2010, on the above identified application, reconsideration is respectfully requested. Claims 12-17, and 20 - 22 are pending in this application.

With this amendment, claims 18 - 19 withdrawn.

### **Election/Restrictions**

The Examiner requested a restriction under 35 U.S.C. 121 between the following allegedly distinct groups of species:

Species A: drawn to figures 1 – 4 and claims 16 - 17

Species B: drawn to figures 5 – 8, and claims 19 - 19.

The Examiner has deemed claims 12 – 15 to be generic. The status of claims 20-22 have been deemed indeterminate due to improper dependency. Claims 20-22 are herein amended to correct this deficiency, and Applicant respectfully submits that they are also generic.

In response to the requirement for restriction, the Applicants elect, without traverse, Species A. Since claims 12 – 15 have been identified as generic, and claims 20 – 22 are submitted to be generic as currently amended, the relevant claims therefore are 12 – 17, and 20 - 22.

## CONCLUSION

Accordingly, it is believed that the present application now stands in condition for allowance. Early notice to this effect is earnestly solicited. Should the Examiner believe a telephone call would expedite the prosecution of the application, he is invited to call the undersigned attorney at the number listed below.

Respectfully submitted,
